## Name Badges

We use state-of-the-art manufacturing processes to create custom name badges. With so many options available, you can be sure that your badge will fit within your company's specifications and standards.

- Prices start at \$2.48
- EcoBond® water based protective sealant available
- Manufacturing Time = 3-5 Business Days
- First Time Set-Up: \$40.00 | Repeat Set-Up: \$25.00

## Vinyl Card Stock Name Badges

Affordable and lightweight vinyl card stock name badges are a popular choice. This material is the thickness of a credit card with a smooth, uniform surface which provides an excellent finish for digital printing. Colors are crisp, vivid and –most importantly – accurate. Choose from a matte or glossy finish. Includes a clip or pin backing.

## ABS Plastic Name Badges

ABS Plastic name badges have a thicker feel than vinyl card stock, measuring about .063". ABS Plastic is an affordable option, and is bright white from surface to core. Your artwork is digitally printed and this material has a matte finish. Includes a clip or pin backing.

## Custom Shapes

Create any name badge shape you can imagine with any of our materials and processes. Call us for a quote.

## Engraving Stock Name Badges

2-ply engraving stock is an incredibly versatile material, creating a very polished and high-end product. This stock works well with just about any method of printing including digital printing, screen printing and engraving. There are 20 satin finish colors in stock as well as 13 metallic options. If you we don't have the colors you need in stock, we can get them for you quickly. Includes clip or pin backing.

## Aluminum Name Badges

Lacquered aluminum badges are available in gold and silver. This is a lightweight metal with an elegant brushed surface. Digital printing looks great on our aluminum material. For a little extra shine and protection, EcoBond® water-based sealant is recommended to fend of scratches. Includes a clip or a pin backing.

## Brass Name Badges

Brass name badge material is the most upscale material that we carry in stock. It's durable, long-lasting and has a rich satin finish with a light grain texture. Digital printing works well on brass, but we can even engrave and hand-fill this material for an incredibly luxurious look. For a little extra shine and protection, EcoBond® water-based sealant is recommended to fend of scratches. Includes a clip or pin backing.

## Backings

All name badges come with a pin or a clip backing. Magnet backings are available for \$1.25.

Promotional/Badge Add-Ons

If you have a special event or sales promotion, consider a custom name badge add-on!

They are designed to sit between your name badge and a magnet backing. Name badge add-ons are digitally printed on vinyl card stock, which is about the same thickness as a credit card. They can be made into any shape you can imagine and will bring a lot of attention to what you're promoting.

VIP Passes

VIP passes are perfect for trade shows, conventions, club tours and special events. All VIP passes are custom made with your art and specifications. The most common material for VIP passes is vinyl card stock but we can also use ABS plastic, engraving stock, aluminum or brass. The prices show below are for passes that are digitally printed and up to 7"sq. Foil and holographs and custom shapes are also available. Call us for a quote.
